

2nd Level Family Constellation Intensive Training

“SUPPORTING LOVE”

June 7 to 15 -2024

With Svagito Lieberman

Imparte: Svagito Lieberman

In Alcanar Platja-Prov. Tarragona-España

In Level 2, we explore more complicated topics and their underlying family dynamics, such as addiction, abortion, adoption, sexual abuse, and others. We also look at what is at the source of many bodily illnesses and symptoms, and how to work with them systemically

Participants will learn how to facilitate Family Constellation sessions, following the understanding and observations of the systemic field and the movements of the representatives. The role of the facilitator and the inner attitude of the facilitator will be examined, and we will explore how to support the intrinsic love of a family and find solutions to many types of problems.

Training Investment: 1,200€

+Accommodation for 8 nights: 592€ (single use room + all meals)

Payment for the room is made directly to the hotel.

SOME TOPICS INCLUDE

- *Recognize and support healing movements ('soul movements').
- *The interview before a constellation: how to gather relevant information.
- *Constellations in individual sessions: working with symbols.
- *Steps to configure constellations
- *When to end or interrupt a constellation.
- *The functioning of systems other than family systems (such as work teams, organizations, the body as a system).
- *Constellation work practice.

The movement within the constellation that takes us “beyond the family” and “beyond blind love to conscious love” is part of a process of inner growth that brings the individual into deep synchrony with life itself and in a real and joyful loneliness. Only from that true ability to be alone can a healthy relationship be achieved.

*In this training each participant will experience and understand family conditioning and will have the opportunity to build their own constellation. We will also learn by observing and participating in the constellations of other participants. The process of this work will be made transparent as the therapist explains step by step what is happening within each constellation and how the source of love can be found.

We include the latest findings and the most recent approach to how to work with family systems.

*The role of the facilitator and his inner attitude will be examined, and we explore how to help the intrinsic love of a family come through and to find solutions to many kinds of problems.

-Prerequisite for reservation-: previous experience in Family Constellations work.

"When the family has been brought into its natural order, the individual can leave it behind while still feeling the strength of his family supporting him. Only when the connection with his family is recognized, and the responsibility of the person is clearly seen and then distributed , the individual may feel discouraged and go about his personal affairs without anything from the past weighing him down or holding him back." - Bert Hellinger –
